

Spiral of Light

We invite children to participate in a Spiral of Light to symbolize the shorter days and longer nights & lust for light, warmth and protection.

A spiral path winds through evergreens with a single candle at it's centre. One at a time, each child is given a candle in a shiny apple.

One at a time each child walks the path carrying their candle through the spiral, lighting it from centre.

On the way out each child chooses the place for their candle in its apple in the evergreen of the spiral, lighting the dark.

When all the children have walked the path, the whole spiral is aglow with lights.

DUBLIN FOOD CO-OP MEMBERS
